# HARDY PERENNIALS

Hardy Vines, Shrubs, Roses, Evergreens  
Fruit *and* Shade Trees, Etc.

## *The* PALISADES NURSERIES

INCORPORATED

R. W. CLUCAS, Manager

SPARKILL, N. Y.

**W**ILHELM MILLER says in the Garden Magazine: "But now that the treasures of the Far East are lavished upon us, we have hardy plants suitable for practically every purpose the most exacting gardener can conceive. And wherever we have any special object to accomplish, we ought to try nine times to find a hardy plant that will do the work, before falling back on a tender one. And this for two reasons: First, hardy plants harmonize better with our climate and environment than tropical plants. Second, as a rule, they are cheaper to maintain. And, in the long run, those effects which grow naturally out of the soil, and out of true economy, will be recognized as the most artistic."

# General List of Hardy Perennials

## INTRODUCTORY REMARKS AND TERMS

The plants offered herein are all sturdy, either nursery-grown or established in pots, and can be depended upon being true to name and flowering satisfactorily the first season.

Our stock of plants is reasonably large, having 30 acres of hardy plants in cultivation. We make a specialty of supplying landscape gardeners, dealers and others in the trade.

We print real prices, which as long as unsold and without engagement we are willing to accept. The prices are net, except being subject to 5 per cent discount when cash accompanies order; otherwise payable in thirty days from date of invoice on approved credit. Packing charges at cost, f. o. b. Sparkill, N. Y. To meet reputable competition, we will reduce our prices still further on being given the opportunity.

No less than six of one kind furnished at dozen rates, 25 at 100 rates, 250 at 1,000 rates, unless otherwise specified. Three plants of one kind at 10 cts. each for 25 cts. Clumps (or plants of extra-large size) can, in most cases, be supplied at double the prices named, which are for ordinary-size plants. These clumps or extra-large plants will be sent only when specially ordered.
